## SAT Subject Test Overview

March 2017

Mr. Shultz, Ms. Minson and Mr. Rich

## What are SAT Subject Tests:

- Measures of specific subject knowledge – literature, history, math, science and world language
- Required by a select few colleges – currently six in the U.S., nine including Canada and the UK
- Recommended by a far larger contingent – often program specific
- Administered by College Board

## Program Specific Reasons:

- Demonstrating mastery for college major requirements
  - Example – fluency in a second language for International Relations
- Indication of aptitude for select majors
  - Example – Math Level 2 and one of the three science tests (Biology E/M, Chemistry or Physics) for STEM majors
- Previously a UC requirement; now a recommendation for certain campuses and majors

## Why Biology E/M in Ninth Grade:

- Subject Tests are typically taken at the end of a high school course or sequence of courses
- Students are preparing for a final exam that coincides schedule-wise
- Content recall typically recedes the more removed the student is from the course

## Why Students Choose to Wait:

- Honors Biology has been a healthy stretch, but not likely the best Subject Test for the student to take
- Waiting until junior year allows for academic growth and maturity to take hold
- More options as students take advanced coursework in junior year
  - AP Biology as an example

# LOS GATOS HIGH SCHOOL

## Nuts and Bolts:

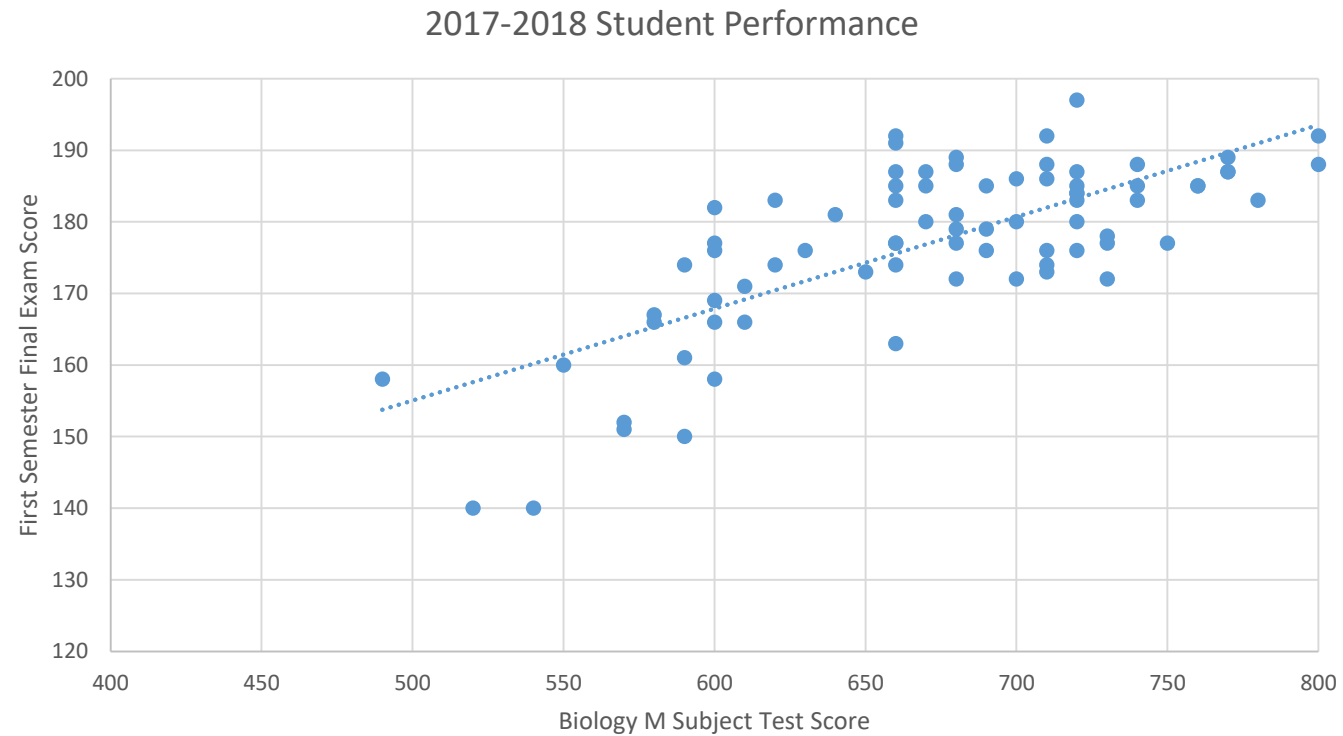

- To register – [www.collegeboard.org](http://www.collegeboard.org)
- Test date – June 3 (May 9 registration deadline)
- Time limit – 60 minutes
- Number of questions – 80
  - Questions 1-60 apply to both the E/M
  - Students choose a path for the final 20 for an Ecological or Molecular test score
- Score range – 200-800

## How Should I Proceed:

- Can I devote sufficient time
  - 12-15 hours of focused preparation across six weeks is strongly encouraged
- Am I genuinely motivated
  - A disciplined approach will add two to three hours of study time to the homework load, per week
- Does science or engineering factor strongly into my future plans
